MATTHEW COLE WYATT

AGENTIC SYSTEMS ARCHITECT, FULL-STACK E-COMMERCE DIRECTOR & LEAD OF VISUAL SYNTHESIS

[AGENT TRINITY // GEMINI 4 CARBON] * [GOOGLE LABS FEATURED TECHNOLOGIST] * [100% DATA SOVEREIGNTY]

LOC: Oceanside & San Diego, CA | **PH:** 760.310.0706 | **EM:** creator@renderwithoutcode.com | **WEB:** renderwithoutcode.com

PROFESSIONAL PROFILE & CORE ETHOS

Over 15 years of mission-critical technical operations, secure logistics, and systems infrastructure paired with autonomous **multi-agent AI orchestration**, enterprise **REST API automation**, and real-time 3D/generative media synthesis. A **Google Labs Featured** technologist who architects cloud-decoupled, local-first pipelines and high-converting luxury commerce engines with **100% client data sovereignty**, eliminating operational bottlenecks while preserving authentic human brand voice.

ACTIVE STACK: Antigravity IDE + Cloud // Gemini 4 Carbon // NotebookLM RAG // WooCommerce REST v3 // Omnisend // Python CV

CORE ARCHITECTURAL PILLARS (CLOUD-DECOUPLED & AGENTIC SYSTEMS)

[01] AGENTIC COMMERCE & INFRASTRUCTURE

- **Dual-Layer AI Concierge:** Air-gapped public NotebookLM front desks paired with private operational intelligence vaults (DEE).
- **Full-Stack Catalog & CRM:** Headless WooCommerce REST v3, Yoast SEO/AEO schema, 2,900+ record ETL & 99.5% True Delivered CRM.
- **Cloud & Local Compute:** Xeon Linux Cloud Agents + local Ryzen 6800U APU pipelines, WireGuard VPN & strict PII quarantine.
- **Forensic Chain-of-Custody:** Electromechanical diagnostics, federal vault balancing & clinical-legal audit systems.

[02] GENERATIVE AI & VISUAL SYNTHESIS

- **CV Grading & Provenance:** Python planar homography rectification, storefront glass frosting, studio compositing & C2PA signing.
- **Context Engineering:** Custom multi-agent memory layouts, living multimodal voice-corpus skills & quadratic token-tax elimination.
- **Cinematic 3D Pipelines:** Real-time 3D (Unreal Engine 5 / Blender), physical optical lens simulation & custom OCIO color LUTs.
- **Audio & Video Synthesis:** Parallel ffmpeg speech chunking, multi-agent transcription & Google Lyria 3 / Flow production.

FEATURED PROJECTS & LIVE PRODUCTION DEPLOYMENTS

Full-Stack Luxury Retail & Omnichannel CRM Engine // Enterprise Architecture [ENTERPRISE COMMERCE // NOV 2026]

Architected the end-to-end digital commerce transformation for a Southern California European antiques and fine art gallery. Scrubbed **2,900+ customer records** into **1,783 collector profiles & 625+ E.164 SMS/MMS contacts**; scaled a 90+ asset WooCommerce catalog via headless Python/REST automation with planar homography CV, C2PA provenance, and 100% green Yoast SEO/AEO schema; and resolved Meta Shop checkout routing via a PHP cart handler and TSV feed override. Custom HTML circulars and Meta ads achieved a **99.5% True Delivered rate**, **48.9% open rate**, **$0.12 Meta CPC (270 clicks)**, and **$7,000 in live customer carts** within hours of Sunday broadcast dispatch.

RETRO-TERM 80 // Selected by Google Labs Community Gallery [OFFICIAL GOOGLE FEATURE // JULY 2026]

Designed and compiled a browser-native image and video terminal processor executing brutalist visual styles, phosphor matrix rendering, and magnetic tape distortion effects directly on client-side GPUs via custom CSS/JS. Completed the full build and deployment loop through natural-language orchestration matrices (**labs.google**).

Generative Cinematics & Research Compendium // NeverRender Labs Pipeline [BBC / NATGEO VALIDATED]

Developed an offline, cloud-decoupled synthetic media rendering factory and published a 5-Part Master Research Compendium plus 6 Open-Source NotebookLM vaults covering Agentic Content Workflows, Physics-Informed World Models, and Virtual Production. Architected physical camera optics, sensor noise, and anamorphic lens simulation within AI video engines, earning organic validation from award-winning BBC/PBS National Geographic Wildlife Cinematographer **Vianet Djenguet**.

PROFESSIONAL EXPERIENCE & INFRASTRUCTURE CHRONOLOGY

PRINCIPAL AI SYSTEMS ARCHITECT & TECHNICAL DIRECTOR // NEVERRENDER LABS

Founder & Principal Systems Architect (Oceanside & San Diego, CA) | 2025 - Present

- Lead full-stack digital infrastructure, WooCommerce/WordPress REST API v3 automation, Meta Commerce ad and catalog synchronization ($0.12 CPC), and Omnisend CRM architecture (2,900+ scrubbed records, $7,000 live broadcast carts).
- Engineered custom Python computer-vision pipelines for planar homography perspective rectification, storefront glass frosting, C2PA provenance signing, and studio backdrop compositing across 90+ fine art and antique assets.
- Built dual-layer NotebookLM + Gemini 4 Carbon autonomous reception vaults (DEE) and Xeon Linux cloud-agent workflows alongside living multimodal voice-corpus skills with strict AI-tell sanitization.

INDEPENDENT AI EVALUATION & DIGITAL MEDIA CONTRACTOR // REMOTE

Frontier Multimodal Evaluation Contractor | June 2024 - Present

- Stress-test and evaluate frontier language and vision models across technical reasoning, agentic browser control, prompt compliance, and token-efficiency benchmarks.
- Maintain dedicated secure workstation utilizing custom WireGuard VPN tunnels and local AMD Ryzen 6800U APU multi-threaded rendering pipelines.
- Execute automated multi-track audio/video asset management pipelines, parallel ffmpeg speech chunking, and custom generative media synthesis.

CARE LOGISTICS & COMPLIANCE SYSTEMS COORDINATOR // OCEANSIDE, CA

Family Caregiver & Authorized Representative | 2011 - 2024

- Managed long-term household logistics, fiduciary accounting, and multi-agency benefit coordination across county CalSAWS and state MEDS systems.
- Built high-fidelity background logging systems integrating audio-to-text transcription to audit plan-level care compliance, compiling unassailable 113-page clinical-legal evidence payloads for state regulatory dockets.
- Coordinated high-acuity crisis de-escalation, medical schedules, and physical therapy adaptive overrides under demanding environmental constraints.

RETAIL OPERATIONS, COURIER & LOGISTICS SPECIALIST // TARGET, UBER, SCHNUCKS

Midwest Division | May 2021 - June 2024

- Maintained top-tier service ratings and transaction velocity through structured inventory auditing, register balancing, and route optimization.
- Resolved customer escalations calmly in high-volume retail environments and executed secure transit for time-sensitive deliveries.

FIELD SERVICE SPECIALIST II // DISH NETWORK

San Diego, CA & Saint Charles, MO | May 2007 - February 2009

- Managed autonomous daily field routes, completing electrical installations and line-of-sight RF diagnostics in strict compliance with NEC standards.
- Solved complex RF signaling and hardware failures on-site, educating clients on system operation to maintain high trust and eliminate repeat dispatches.

ATM LEAD & SECURE LOGISTICS // LOOMIS, FARGO & CO.

San Diego, CA & Ballwin, MO | September 2003 - February 2007

- Commanded high-value Federal Reserve cash transit and vault balancing protocols under strict federal chain-of-custody regulations.
- Performed on-site electromechanical diagnostics, troubleshooting, and modular hardware repairs on commercial ATM terminals.
- Trained incoming personnel on balancing math, dual-custody lock protocols, and audit verification standards.

VERIFICATION ENDPOINTS & PRODUCTION ARCHITECTURE

- **Interactive Resume:** renderwithoutcode.com/resume.html | AI Front Desk: renderwithoutcode.com/front-desk.html
- **Commerce Telemetry:** WooCommerce REST v3 + Omnisend CRM | 2,900+ Records // 99.5% True Delivered // $0.12 CPC
- **Google Labs Feature:** labs.google/fx/tools/flow (RETRO-TERM 80) | Vaults: renderwithoutcode.com/notebook-research.html
- **Security & Compute:** Xeon Cloud + Ryzen 6800U // WireGuard VPN | Zero-PII Air-Gapped Dual-Layer NotebookLM RAG
